Dear Mr Weisberg:

I inclose check for $5.00 for a copy of your second book on the Kennedy assassination. I have already had benefit from it in that in an article I sent Penn Jones that he is now publishing I had written that the back shot at Kennedy came from the south west corner of the D building. I was about to ask that this be deleted when Salandria told me that you had confirmed that this window was open contrary to the assertion of the Warren Report that only the SE window was open on that floor.

best wishes
